

Mother's Day: a special day for the family. "It is special because the family is a shadowy reflection of mom! A MOTHER is a jewel with many facets to her life, a gem of wealth to her children, and a precious stone cut by God for His honor. To honor God, she pervades her life with the knowledge of His Word, the greatness of His grace and the humility of His Divine purpose. Mothers are a diamond to shine forth Christ, a ruby to show His redemption and a jewel on earth to demonstrate the great faithfulness of God." DEM
